

PHYSICAL PRESENTATION GUIDELINES

19 DECEMBER 2024

On behalf of the ISoMER 2024 Organizing Committee, we would like to thank you for joining our hybrid conference. You need to create presentation slides of your work to deliver your research to the audience in a more effective way, thus making the conference more informative, valuable, and engaging for other attendees.

Participants **must** attend their presentation session (please refer to the **Program Schedule**) to receive the **Presenter Certificate** which will be emailed to the presenters at the end of the conference.

The presentation will be done by sharing your presentation slide through media storage (pendrive, hard disk, phone etc.) or cloud storage and upload it to the laptop provided by the conference. Your presentation should be **NO longer than 10 minutes**. After your presentation, you will have **5 minutes for Q&A**. The Session Chair will coordinate the presentation order according to the schedule in the program. Please prepare your presentation the usual way using MS PowerPoint software or similar. You may use the **ISoMER 2024 Presentation Template** available in the **Presenter Kit**.

Please be ready at the parallel session venue 10 minutes before the session starts to ensure a smooth presentation during your session.

Should you have any questions, please contact us at isomerunimap@unimap.edu.my.
